We have become aware that the above article published in the Journal of the Neurological Sciences contains data originally published by Frenkel, D et al. in the Journal of Immunology (J Immunol 2003; 171:6549–55). The publication in J Neurol Sci was published as part of a presentation given by invitation at a European Charcot Symposium, entitled: “Preserve the Neuron. Brain atrophy, axonal loss, remyelination and stem cells in MS” held in Lisbon Portugal December 11–13, 2003. It was one of the 30 papers presented and was part of a special Journal of the Neurological Sciences issue devoted to this symposium (Volume 233, Issues 1–2, pages 1–124, 2005).
